Math 318 HW 2

Xander Naumenko

25/01/23

Question 1. Let x be the proportion of people who cheat.

$$P(YES) = 0.45 = 0.5 \cdot P(YES|HEADS) + 0.5 \cdot P(YES|TAILS) = 0.5 \cdot (1 - x)$$

$$\implies x = 0.1.$$
